Allowable Subject Matter

Claims 3 and 4 are allowed.

The following is the Examiner's statement of reasons for allowance: Statement of allowance is in reference to independent claims 3 and 4. There are no other claims.

The present application is directed to a method and system that creates and displays a credibility rating for a merchant across multiple independent electronic marketplaces. In particular, the independent claims 3 and 4 recite the patentably distinct feature of creating a rating analysis of a participant from transaction data collected across multiple independent electronic marketplaces and displaying the rating analysis across the independent electronic marketplaces.

Discussion of most relevant prior art:

i) US Patent 6,415,270 B1 to Rackson et al. hereinafter referred to as Rackson.

Rackson discloses a system and method for coordinating an auction for an item between a plurality of auction services and a plurality of bidders. Rackson fails to teach or suggest creating a rating analysis of a participant from transaction data collected across multiple independent electronic marketplaces and displaying the rating analysis across the independent electronic marketplaces.

ii) Dialog File:148, Accession #: 11369168 hereinafter referred to as Dialog. Dialog discloses a reputation rating system developed by eBay to assist buyers in determining whether a seller is reputable. Dialog fails to teach or suggest creating a rating analysis
